As a Londoner, I agreed with your Three Perfect Days suggestions in May. But the weather section says London is foggy. That's a myth kept alive by Sherlock Holmes films. I've seen fog once in twenty years. But I do not dispute that it is "damp and drizzly."

Angus Rodger, London

Puzzled / I'M A PREMIER FLYER, RED CARPET CLUB MEMBER, AND I complete the UAL survey after each flight, so I read and enjoy a lot of HEMISPHERES. But I take exception to a clue in the April '08 crossword puzzle that reads "Let It Be record locale." The answer listed is "SIDEB." Wrong! "Let It Be" was an A-side single. The interesting thing about "Let It Be" was that its B-side, "You Know My Name (Look Up The Number)" was never released on an album and featured none other than The Rolling Stones' late guitarist Brian Jones on sax. */ Dan Wasser, Gaithersburg, Maryland*

WHEN ARE YOU GOING TO RUN ANOTHER OF DR. GRUBER'S "Brain Teasers" Quick Quizzes? I fly often on United and when I work his intriguing questions, the flight goes by so fast I leave the plane feeling my intelligence has increased. It's almost worth the flight just to take his tests. */ Peter Simon, Chicago, Illinois*

Editor's Note / We checked with our crossword master, John M. Samson, and he had a response Mr. Wasser will like. "Help! Right you are, Dan. Let's change that clue to another, more appropriate Beatles single: 'I Should Have Known Better' record locale." Puzzle fans will also like this issue. Knowing how hectic summer travel can be, we've upped our usual amusement factor with "Food for Thought," Pat Bruno's culinary quiz on page 102, another "Brain Teasers," by Gary Gruber on page 89, and the other puzzles you've come to expect: four Sudoku puzzles on page 106 and the crossword puzzle on page 158.

Where's the Archive? / I HAVE RECENTLY STARTED FLYING UNITED and like HEMISPHERES so much I'm delighted to see it online. But the archive just goes back two months. Will more issues be accessible in the future? */ Frederic Rhoads, Chicago Illinois*

Editor's Note / We can't archive issues ad infinitum, but our Three Perfect Days series is archived 100 destinations deep. Check them out, and our new flipbook presentation, at hemispheresmagazine.com.
